

Kvalitativní metody ve výzkumu X.

Přehled použitých zdrojů

Autor příspěvku:

doc. Ing. Katarína Melichová, Ph.D.; Mgr. art. Soňa Bellérová, ArtD.; Ing. Michal Hrivnák, Ph.D.
Slovenská poľnohospodárska univerzita v Nitre

Název příspěvku:

Co-design: kvalitatívny výskum ako most medzi skúsenosťami komúnit a inkluzívnym dizajnom verejných priestorov

Literatura:

- Restorative cities framework: green, blue, sensory, neighbourly, active, playable, inclusive (Roe & McCay, 2021)
- Nature Based Solutions (NBS) as a tool for inclusive health and wellbeing (European Commission, 2015)
- Polycentric governance principles and the concept of PPPPs – Public-Private-People Partnerships (Marana, 2020)
- Participatory Action Research (PAR) (Macdonald, 2012; Cheung et al., 2022)
- Hedonic and eudaimonic theoretical approaches reflected in the subjective well-being dimension (Bradburn, 1969; Diener, 1984; Kahneman, Diener & Schwarz, 1999; Lyubomirsky & Lepper, 1999)
- Determinants of mental health and well-being (WHO, 2010)
- GDEI perspective highlighting the relationship between well-being and discrimination (Meyer, 2003; Alvarez-Galvez & Salvador-Carulla, 2013; UN Women, 2021)
- Health and wellbeing as co-created common pool resources (Ostrom, 1990; Ostrom et al., 1994)
